

SuiteMed™ IMS for OB/GYN

A fully integrated EHR / Practice Management solution specifically designed to meet the needs of Obstetrics and Gynecology

SuiteMed IMS OB/GYN EHR is integrated with a comprehensive practice management solution that's designed for the unique needs of Obstetricians and Gynecologists, enabling them to digitize every process in their practice including the gestational age, prenatal details, OB/GYN history, e-prescribing, connection with labs for order and results management, physical exams, ultrasound and image integration.

Obstetrics and Gynecology Templates and Workflow

SuiteMed IMS will streamline the entire documentation and patient charting process with our robust Obstetric and Gynecologic conditions- and symptoms-based templates which come pre-loaded and include templates for Abdominal Mass, Abnormal Vaginal Discharge, Amenorrhea, Birth Control, Dysmenorrhea, Dyspareunia, Menorrhagia, and more. The template editor lets practices customize and add templates to suit individual preferences, allowing physicians to work as their particular practice and personal preferences demand. Templates feature intuitive pick-lists, and checkboxes to simplify documentation encouraging chart completion.

This fully integrated electronic health records (EHR) and practice management (PM) solution is ideal for the OB/GYN practice, connecting them to patients, payers, medical devices, pharmacies, labs and other health care entities regardless of the practice size, specialty and number of locations.

SuiteMed IMS, version 14 is an

Ambulatory EHR

SuiteMed IMS for Obstetricians & Gynecologists

- Simplify patient visits with OB/GYN-specific templates for faster, more comprehensive documentation, storage, and retrieval of detailed patient data.
- Enhance workflow with a paperless office. Gain better communications, greater efficiency, and deliver better patient care.
- Improve overall revenue with accelerated reimbursement, automatic coding recommendations, decreased denials, and increased patient flow.
- Built-in reporting tools scrutinize your practice's patterns for pay-for-performance, meaningful use requirements, quality measurements, and business analysis.
- Access patient information at the point of care, no more chart-pulls, and no more misplaced records.
- Eliminate redundant paperwork, enable patients to complete forms with integrated patient portal, and in-office kiosk.
- Achieve interoperability and connectivity with other health care entities, pharmacies and labs for referrals, orders, and results.
- Local ongoing support from a national team of industry experts -- SuiteMed Authorized Partners, dedicated to serving the needs and interests of Obstetricians and Gynecologists.
- Automate prescription writing, drug interaction, and formulary checking with automatic alerts, and a fully-integrated drug database.
- Easily deliver patient education materials for OB/GYN-specific tests, procedures, and disease management.

Up to \$44,000

The Medicare and Medicaid EHR Incentive Programs will provide incentive payments to eligible professionals, (Chiropractors are eligible) as they adopt, implement, upgrade or demonstrate meaningful use of certified EHR technology.

Purchase with Confidence

SuiteMed IMS is guaranteed to meet all of the ARRA meaningful use criteria and requirements or your money-back. How can we guarantee you'll be qualified for HITECH Act incentive payments?

CCHIT Certification

SuiteMed IMS has received the most current CCHIT certification, and, as of September 30, 2010, the most recent version was recognized by CCHIT as a Stage 1 Meaningful Use certified Complete EHR with ONC-ATCB 2011/2012 Certification, meeting all criteria published by the U.S. Department of Health and Human Services (HHS) in the Final Rule.

Easily Become a Meaningful User

SuiteMed IMS features a unique Meaningful Use Dashboard that quickly identifies meaningful use deficiencies. Review clinical data with graphical charts identifying patients not meeting clinical measures quickly and easily. Tasks, reminders, alerts and letters can be generated to improve meaningful use status.

Registration begins Jan. 3, 2011. Participate now to get the maximum incentive payments!

Pre-loaded, customizable procedural templates specific to Obstetrics and Gynecology.

SuiteMed IMS Features for OB / GYN

- **Procedural Templates Specific to Obstetrics & Gynecology**

Pre-loaded, customizable procedural templates can improve documentation accuracy and patient care in addition to increasing efficiency. Examples include Colposcopic examination templates, Endometrial biopsy operative reports, LEEP procedure operative reports, and Pap Smears or Ultrasounds (OB).

- **ICD Templates Specific to OB-GYN**

Have all your suggested codes, RXs, and procedures automatically populate for you based on the selections you document for each patient.

- **Obstetric Conditions- and Symptom-Based Templates**

Documenting histories, complaints and other facets of the visit, diagnosis, and prognosis process couldn't be more simple and intuitive with SuiteMed's robust OB-GYN templates that come pre-loaded and ready to use. Plus they are a snap to customize.

- **Breast and Axillary Conditions**

Easily track and enter information such as abnormal mammogram, abnormal sonogram, axillary lump, axillary pain, breast lump, breast pain, family history of breast cancer, nipple discharge, personal history of breast cancer, benign breast disease, and more.

- **Complete Obstetrics & Gynecologic Histories**

View detailed histories for patients at any given time, accessed easily with a click.

- **Screening Questionnaires**

Acquire, track, and manage data from screening for each patient with ease. Examples include questionnaires for genetic screening, hormone screening, abuse screening, and contraceptive screening.

- **Ante Partum Record**

Post-partum records and gynecologic malignancy records can be kept and managed digitally for easy follow-up and management.

- **Gynecologic Conditions - and Symptoms-Based Templates**

Our robust gynecologic conditions- and symptoms-based templates come pre-loaded and include templates for Abdominal mass, Abnormal vaginal discharge, Amenorrhea, Birth Control, Dysmenorrhea, Dyspareunia, Menorrhagia, and more.

The SuiteMed Difference

SuiteMed's Ambulatory Electronic Health Record (EHR) and Practice Management software are fully integrated sharing a single database, to meet your unique clinical and administrative needs. Our solutions can be implemented as an integrated solution or separately as stand-alone applications and can be deployed as a client-server or web-hosted solution.

It takes more than just software to deliver success in today's complex practice. That's why SuiteMed ensures your success with our local Authorized Partners, experienced in health IT and certified in our solutions.

SuiteMed Authorized Partners are with you all the way, from demonstrating SuiteMed IMS to implementation and beyond – your local ongoing single source solutions partner. An Authorized Partner is always available for fast on-site or phone support, training and revenue improvement services so you can concentrate on practicing medicine not technology.

Why a Certified EHR?

To ensure that the system you select will allow you to qualify for Meaningful Use federal incentive payments, select a solution that is EHR Certified. Since there are few benchmark measures available to provide a level of confidence regarding specific EHR functions an EHR certification is very important.

The ONC-ATCB certification has been developed by the federal government to certify that an EHR system meets the technical requirements needed for a provider to become a meaningful user of an EHR system. The use of an ONC-ATCB certified product is required to receive any federal government incentive money for the use of an EHR system. The ONC-ATCB certification test script is very specific to EHR criteria that qualified providers must meet in order to participate in the government incentive program. There are two types of ONC-ATCB certifications; one for Complete EHRs and one for EHR Modules. A Complete EHR certification for Stage 1 Meaningful Use means that the EHR product has met all 33 criteria tested. Why piece together modules to meet meaningful use, select a certified Complete EHR such as SuiteMed IMS. According to CMS, eligible professionals, need to have all the capabilities in their selected EHR even if they're not using all the EHR capabilities.
