

SuiteMed™ IMS for Pediatrics

A fully integrated EHR / Practice Management solution specifically designed to meet the needs of the Pediatrician

SuiteMed IMS Pediatrics EHR is an intuitive solution with advanced features enabling Pediatricians to automate their inefficient manual processes and achieve a true paperless environment. Its capabilities include prescription writing, referral management, a laboratory interface, patient education and — specific to pediatrics — growth charts, sick and well baby visit templates, developmental milestones, and anticipatory guidelines. The system integrates the entire care delivery process enhancing the healthcare experience for you and your patients.

Pediatric Templates and Workflow

Quickly and accurately diagnose, treat and manage patients with SuiteMed IMS Pediatric templates. The template editor lets practices customize and add templates to suit individual preferences, allowing physicians to work as their particular practice and personal preferences demand.

This fully integrated electronic health records (EHR) and practice management (PM) solution is ideal for the Pediatrician. Electronically receive and send referrals, review faxed lab reports and import photographs. This allows easy annotations directly to the patient visits on images and photographs at the point of care. SuiteMed IMS Pediatrics EHR allows you to leverage technology to better manage your practice and your patients' health.

SuiteMed IMS, version 14 is an

Ambulatory EHR

SuiteMed IMS for the Pediatrician

- Simplify patient visits with pediatric-specific templates for faster, more comprehensive documentation, storage, and retrieval of detailed patient data.
- Enhance workflow with a paperless office. Gain better communications, greater efficiency, and deliver better patient care.
- Improve overall revenue with accelerated reimbursement, automatic coding recommendations, decreased denials, and increased patient flow.
- Built-in reporting tools scrutinize your practice's patterns for pay-for-performance, meaningful use requirements, quality measurements, and business analysis.
- Access patient information at the point of care, no more chart-pulls, and no more misplaced records.
- Eliminate redundant paperwork, enable patients to complete forms with integrated patient portal, and in-office kiosk.
- Achieve interoperability and connectivity with other health care entities, pharmacies and labs for referrals, orders, and receipt of results.
- Local ongoing support from a national team of industry experts -- SuiteMed Authorized Partners, dedicated to serving the needs and interests of the pediatrician.
- Automate prescription writing, drug interaction and formulary checking with automatic alerts, and a fully-integrated drug database.
- Easily deliver patient education materials for pediatric-specific tests, procedures, and disease management.

Up to \$44,000

The Medicare and Medicaid EHR Incentive Programs will provide incentive payments to eligible professionals, (Chiropractors are eligible) as they adopt, implement, upgrade or demonstrate meaningful use of certified EHR technology.

Purchase with Confidence

SuiteMed IMS is guaranteed to meet all of the ARRA meaningful use criteria and requirements or your money-back. How can we guarantee you'll be qualified for HITECH Act incentive payments?

CCHIT Certification

SuiteMed IMS has received the most current CCHIT certification, and, as of September 30, 2010, the most recent version was recognized by CCHIT as a Stage 1 Meaningful Use certified Complete EHR with ONC-ATCB 2011/2012 Certification, meeting all criteria published by the U.S. Department of Health and Human Services (HHS) in the Final Rule.

Easily Become a Meaningful User

Tasks, reminders, alerts and letters can be generated to improve meaningful use status.

Registration begins Jan. 3, 2011. Participate now to get the maximum incentive payments!

SuiteMed IMS Features for Pediatrics

- **Pediatric-specific Symptom and System Based Templates**

Documenting conditions and symptoms is faster and more accurate using intuitive templates. In depth complete system and age specific symptomatology. Behavioral conditions such as: ADHD, Autism, Biting, Breath Holding, Spasms, Bruxism, Head Banging, Nail Biting, Pica, Child Abuse, Juvenile Delinquency, Tics, Tantrums, Learning Disabilities, and much more. Templates are pre-loaded and ready to use and are easily customized.

- **Immunizations**

Complete immunization tracking with convenient vaccination review and automatic reminders for due shots. Quick identification of missed shots, track referral information and easily send health maintenance reminders for due immunizations.

- **Growth Chart**

Record a child's growth, chart and calculate growth patterns graphically and compare child's growth and body mass index. Complete Anthropometrics Management, Auto Calculated BMI, Auto Updating of Growth Charts and View Growth Charts with Multiple Versions.

- **Auto Check-In**

Auto Check-In Kiosk feature lets the patients Check-In automatically. This feature reduces workload and helps in managing a high patient flow.

- **E-Prescribing and Prescriptions**

The flexible and comprehensive prescription module tracks medications and refill history. Improve patient care with drug education integration, dosing, allergy and drug interaction and contraindication checks.

- **Authorization / Referral Tracking**

Reduce missing authorizations and claim rejections with authorization checking at Check-In and Charge Posting. Authorization requirements can be set by procedure and insurance criteria.

- **Document & Image Management**

Condense and organize files into a user-friendly, easily accessible digital document file cabinet. Organize documents with customized folder tabs, the integrated fax management module allows you to fax from the system, scan in documents, images, driver licenses, insurance cards, and more.

- **Plus so much more**

Scheduler, Patient Portal, Integrated Appointment Reminders, Auto Check-In, Check-In/Out, Lab Orders & Tracking, Letter Writing, My Tasks Dashboard, Health Maintenance Reminders, Dispensary, Document Management, Reports Preparation and Management, Fax Management, Scan Module, Billing and Collections, Auto Form Filler, and more.

The SuiteMed Difference

SuiteMed's Ambulatory Electronic Health Record (EHR) and Practice Management software are fully integrated sharing a single database, to meet your unique clinical and administrative needs. Our solutions can be implemented as an integrated solution or separately as stand-alone applications and can be deployed as a client-server or web-hosted solution.

It takes more than just software to deliver success in today's complex practice. That's why SuiteMed ensures your success with our local Authorized Partners, experienced in health IT and certified in our solutions.

SuiteMed Authorized Partners are with you all the way, from demonstrating SuiteMed IMS to implementation and beyond – your local ongoing single source solutions partner. As an Authorized Partner we're always available for fast on-site or phone support, training and revenue improvement services so you can concentrate on practicing medicine not technology.

Why a Certified EHR?

To ensure that the system you select will allow you to qualify for Meaningful Use federal incentive payments, select a solution that is EHR Certified. Since there are few benchmark measures available to provide a level of confidence regarding specific EHR functions an EHR certification is very important.

The ONC-ATCB certification has been developed by the federal government to certify that an EHR system meets the technical requirements needed for a provider to become a meaningful user of an EHR system. The use of an ONC-ATCB certified product is required to receive any federal government incentive money for the use of an EHR system. The ONC-ATCB certification test script is very specific to EHR criteria that qualified providers must meet in order to participate in the government incentive program. There are two types of ONC-ATCB certifications; one for Complete EHRs and one for EHR Modules. A Complete EHR certification for Stage 1 Meaningful Use means that the EHR product has met all 33 criteria tested. Why piece together modules to meet meaningful use, select a certified Complete EHR such as SuiteMed IMS. According to CMS, eligible professionals, need to have all the capabilities in their selected EHR even if they're not using all the EHR capabilities.
