- Health Care Portal
- Reports with Full Graphic Detail

Turn your office into an Electronic Medical Office (EMO) with SuiteMed IMS, version 14, is a CCHIT® Certified 2011 Ambulatory EHR. SuiteMed IMS also meets the ARRA stimulus EHR incentive requirements as an ONC-ATCB 2011/2012 Certified Complete EHR for eligible professionals.

SuiteMed IMS was created specifically with your practice needs in mind. With over 200 employees and over ten years of experience developing and implementing practical and innovative software solutions, providers trust and rely on SuiteMed and their local support network of Authorized Partners. These partners are in your neighborhood and understand your local health care needs.

SuiteMed IMS is HIPAA-compliant and features a single database, fully integrated EHR and Practice Management (PM) system. The specialty specific templates in SuiteMed IMS can be easily customized to meet your unique practice requirements while streamlining the billing process to improve cash flow. SuiteMed IMS integrates your business operations with the delivery of care, and the Health Care Portal provides a communications link with your patients for prescription re-fills, appointments, and so much more.

SuiteMed IMS, version 14 is an

Ambulatory EHR

SuiteMed IMS v. 14
CC-1112-372910-1

SuiteMed IMS EHR v.14 is 2011/2012 compliant and has been certified by the Certification Commission for Health Information Technology (CCHIT®), an ONC-ATCB, in accordance with the applicable certification criteria for Eligible Providers adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services or guarantee the receipt of incentive payments.

(9/30/2010; CC 1112 372910 1; NQF 0421, NQF 0013, NQF 0028, NQF 0041, NQF 0024, NQF 0038, NQF 0059, NQF 0064, and NQF 0061; Sybase SQL Anywhere 9.0.2 for 170.302(s), Sybase Power Builder Cryptography Library, Chikat 3rd Party Encryption Library for 170.302(u) and 170.302(v), and Internally Developed Patient Portal for 170.304(g)).

"I am very pleased with SuiteMed IMS due to its flexibility and ease of use. There were also minimal disruptions during the transition from the old system to the new system."

Dr. Patricia Hopp
Emeryville Occupational Medical Center, Emeryville, CA

Electronic Health Records

- Simplified Workflow for More Productivity

- Psychiatry
- Podiatry
- Orthopedics
- Neurology
- Sleep Medicine
- Ophthalmology
- Dermatology
- Internal Medicine
- Family Practice
- Urgent Care and Walk-in Clinics

AUTO CHECK-IN KIOSK

Save time by empowering patients to check-in on their own. This feature reduces workload on your staff so they can focus on more important tasks while helping to manage high patient flow quickly.

Patients can do the following:

- Verify and update demographic data
- Complete office forms electronically
- Indicate their health complaints and medical histories
- Set and adjust appointments

REPORTS

- Pick and choose among 100's of standard reports with ease
- Define frequently-used reports and add them to 'My Favorites'
- Customize reports around any parameters your office requires

BAR-CODED ID CARDS

Quickly register patients with accuracy using fully-automated Bar-Coded ID Cards.

- Reduce data entry and improve reliability
- Save time and manage high patient flow with faster check-ins
- Free up staff for more important tasks

LAB TRACKING

SuiteMed™ IMS supports HL7 interface to transfer diagnostic/lab orders electronically. Customized templates, pre-printed order forms and print or fax orders are easily managed.

- Easily track diagnostic/lab orders
- Conduct pre-import checks
- View comparative and graphical representations of lab data

PRESCRIPTIONS ELECTRONIC PRESCRIBING

SuiteMed IMS's flexible and comprehensive prescription/e-prescribing module easily tracks medication and refill histories. Complete with education integration, dosing, allergy and drug interactions and contra-indication checks.

- Maintain history of current/past medications and provide drug education
- Create frequently used individual or group medication templates
- Transmit prescriptions by print, fax or electronic prescribing

"Our monthly IT expenses were reduced over 87% after implementing SuiteMed IMS - a huge savings for our company."

Rashmi Chauhan

IT Director, The Wellness Plan, Detroit, MI

BILLING

The SuiteMed IMS integrated billing module has everything you need with an emphasis on workflow. It offers automated data entry from EHR generated Super Bills, strong validations, pre-checking of EMC, CMS-1500 or UB92 claims, automatic reconciliation (ERA), enhanced collections and extensive reports to keep finances on track.

- Increase cash flow
- Extensive fee schedule
- Flexible CPT templates, macros, and parameters for fast, accurate billing
- Supports EMC, CMS-1500 and UB92 Claims
- Pre-Claim submittal analysis reducing claim rejection
- Customized CMS-1500 templates based on insurance guidelines
- Print patient and insurance statements
- Auto Reconciliation (ERA)
- Batch status summaries
- Interactive aging report
- Track unpaid claims with rejection analysis for easy rebilling of claims
- High- and low- level claim reports

AUTHORIZATION / REFERRAL TRACKING

Authorization verification is provided for check-in and charge posting to ensure insurance reimbursements.

SuiteMed IMS can:

- Set authorization requirements by procedure and insurance
- Use insurance-approved, pre-printed authorization forms
- Reduce claim rejections due to missing authorizations

COMMUNICATION with 'MY TASKS' and 'REMINDERS'

A key benefit of SuiteMed IMS is better communication among your staff. Task reminders significantly improve workflow and maximize the allocation of resources.

Robust features include:

- Well-defined communications through 'My Tasks'
- Extensive 'Reminders' set-up to assign tasks to designated staff
- Fully integrated with all other modules
- Improve productivity, speed, and accuracy

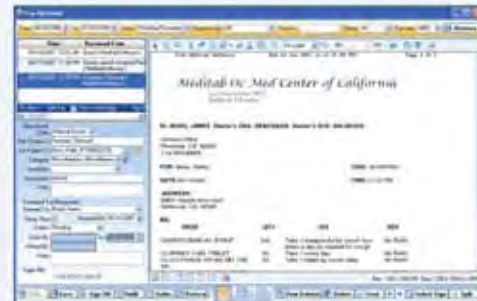

EASY, SECURE, ELECTRONIC, PERMISSIONS-BASED ACCESSIBILITY

LETTERS & FORMS

Quickly and easily generate letters and forms with customizable input fields that auto-populate with information.

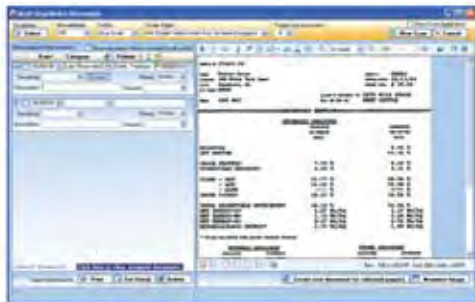

- Extensive mail merge capabilities
- Pre-defined letter templates
- Procedure and insurance specific, image-based forms
- Easy to use form-filling tools
- Mapping of letter and form data fields
- Password-protected signature security

FAX MANAGEMENT

SuiteMed IMS features an integrated fax server making sending and receiving faxes more efficient, easier, and less expensive.

- Send and Receive Electronic Faxes
- Fax EHR, Rx, Lab Orders, Documents or Letters in seconds
- Save money on stationery and toner cartridges

DOCUMENT & IMAGE MANAGEMENT

Condense and organize paper flow into a user-friendly digital document filing cabinet that's both easily accessible and secure.

- Customize file folders to organize documents
- Batch-scan documents to save time
- Work seamlessly with the Fax Management module
- Easily compile and retrieve patient documents and images

PATIENT PORTAL

The SuiteMed IMS Patient Portal allows patients to access a secure, personal health care information from anywhere, anytime -- all from the patient's own personal computer.

- View lab results
- Access current health records
- View and update appointments and schedules
- Refill prescriptions
- Examine current and past statements
- Receive lab result interpretation
- Efficiently share health care documentation
- Manage referrals
- Receive and reply to notes

*Easily organize patient information
into readily accessible digital
document filing cabinets, by patient.*

*Securely store and organize letters, visit notes,
faxes, labs, prescriptions and graphs that
are instantly 'filed' into patient charts.*

Take advantage of Federal Stimulus Incentives and get SuiteMed IMS virtually free.

SuiteMed IMS, is an **ONC-ATCB 2011/2012 Certified Complete EHR Guaranteed for eligible professionals to meet ARRA Stimulus Incentive Requirements**

Physicians who implement a certified solution and become 'Meaningful Users' will be eligible for up to \$44,000 in Medicare stimulus incentive payments. To get the maximum incentive payment, Medicare eligible professionals must begin participation by 2012. The Medicaid EHR Incentive Program allows the eligible professional to wait as long as 2016 to enter the incentive program and still receive maximum incentive. With the Medicaid program there is a patient volume threshold for professionals to be eligible and receive up to \$63,750 over a six year period.

By taking advantage of these limited-time stimulus incentives, the technology becomes essentially free.

Why a Certified EHR?

To ensure that the system you select will allow you to qualify for Meaningful Use federal incentive payments, select a solution that is EHR Certified. Since there are few benchmark measures available to provide a level of confidence regarding specific EHR functions, an EHR certification is very important.

The ONC-ATCB certification has been developed by the federal government to certify that an EHR system meets the technical requirements necessary for a provider to become a meaningful user of an EHR system. The use of an ONC-ATCB certified product is required to receive any federal government incentive money for the use of an EHR system. The ONC-ATCB certification test script is very specific to EHR criteria that qualified providers must meet in order to participate in the government incentive program. There are two types of ONC-ATCB certifications; one for Complete EHRs and one for EHR Modules. A Complete EHR certification for State 1 Meaningful Use means that the EHR product has met all 33 criteria testing points.

Why piece together modules to meet Meaningful Use? Select a certified Complete EHR such as SuiteMed IMS. According to CMS, eligible professionals need to have all the capabilities in their selected EHR even if they're not using all the EHR features.
